

Performance, style and comfort

S-Ergo 115 KM-1510.3

The Ergo 115 is a lightweight aircraft grade aluminium wheelchair which breaks down to 8kg (18lbs). The lightweight frame is braced by a system of double cross braces which increase the wheelchair's strength and durability. The streamline oval tubes not only make the wheelchair look great but also add strength to the wheelchair structure.

The Ergo 115 is packed full of innovative features that you would expect from a Karma wheelchair including; slowing brakes, quick release wheels, detachable upholstery and the patented Ergo seating.

S-Ergo

The turning **CURVE** of your life

Pressure redistribution

Reduced sliding

Traditional seat

High risk of causing decubitus ulcers because of pressure points concentrating at hipbone area.

S-Ergo seat

The S-Ergo system (intelligent s-shaped ergonomic seating) provides efficient pressure relief by spreading weight over a greater area, at the same time provides stabilization and reduced sliding.

Features

Ergonomic armpad

The wide armpad is design to give extra support for the elbow.

Swing-away footrest

Swing in/out footrest hangers for added convenience. They offer increased support for legs and thighs.

Extended armrest

Extended armrests maximise the seat area and minimise the overall width of the wheelchair.

Tube-in-centre footplate

New footplate design gives more support to legs, so users can easily relax thigh muscles.

Ergonomic handrim

The new handrim design helps the user propel the wheelchair. Both transit and self propel models have quick release wheels.

Aegis microbe shield seat and back

Comfortable mesh back and seat with detachable seat covers. Both are treated with Aegis microbe shield.

Anti tips

Anti tips, provide greater sitting safety.

Oval tubes

The oval tubes make the wheelchair look great and add the strength of the wheelchair structure.
